- Research Education/Methodology Dissertation/Master Thesis/Diploma Thesis
 Search Reference Other

I will use the requested material for the purpose(s) detailed below:

(please substantiate justified interest, especially of a scientific nature)

3. Intention to publish

Yes

No

The Data set will be delivered as a **download in the data formats SAS/STATA/SPSS including documentation** (E-Mail-Address is required)

Agreement
between the Robert Koch Institute
and

the Applicant

on the
Use of Public Use Files

The applicant must comply with the following regulations and obligations:

- The data set made available is to be used solely for the purpose(s) stated in the application. Any commercial use of the data set is specifically forbidden.
- The data may NOT be passed to third parties. Please note that third parties are required to file a separate application to use the data set.
- The applicant shall adhere to the fundamental rules relating to generally accepted standards of science and technology (“Good Epidemiological Practice¹” and/or “Good Practice for Secondary Data Analysis²”).
- The applicant shall comply with general data protection requirements. In particular, no attempt is to be made to de-anonymise the data, link individual case data to other data sources or publish individual case data.
- The applicant shall quote the source of the data upon publication (See Appendix).
- The applicant shall inform the RKI Data Research Centre (fdz@rki.de) of any successful publication and deliver a digital sample of each publication for the purpose of documentation.
- The applicant shall report any possible errors in the data or relevant documentation.
